

FORMICA PLAIN COLOURS RANGE

Formica® Plain Colours provide a comprehensive palette of the classic and contemporary; they combine perfectly with patterns and effects from other Formica ranges and ensure a practical solution for any environment.

A special selection of colours is enhanced through the addition of MicroDot, a new surface finish for 2006. A low-sheen, satin texture with subtle concave circles arranged in a tight grid, MicroDot adds value to both horizontal and vertical applications.

See also how our new Glow finish illuminates plain colour surfaces, creating an intriguing pearlescent effect for vertical applications.
